

## **Deal of the Month – Debt Consolidation**

**Short Term Private More Cost Efficient than B/C Loan  
To Improve Credit Rating, Cash Flow AND Equity Collateral**

---

**CONFIDENTIAL: Information and analysis is proprietary and should NOT be forwarded or disseminated via email or shared without written permission from Brahma Capital Inc.**

## *Borrower Dilemma*

- 'A' Borrower (>\$85k gross; \$600k home) incurred a surge in unexpected cash expenses during winter months – car and furnace broke down; seasonal christmas surge; recently separated.
- \$32k credit cards and LoC maxed out and a few missed payments caused credit score to drop to 538
- Monthly cash outflow on the \$32k credit card and LoC debts was around \$1,100 per month
- \$2,500 prepayment penalty for moving to alternative Lender offering refinancing & debt consolidation.
- Stressed and afraid client!

**Alternative 1:** Refinance loan to **75% LTV (\$457k) @ 4.99%** for 1yr. Monthly mortgage payment would **INCREASE** from \$1608/month to \$2,439/month. **ONLY** \$20k of credit card debts would go to zero. LoC would remain \$12k. New mortgage loan would cover \$2,500 prepayment penalty to switch.  
**\$6,860 in Commitment Fee (excl. legal)**

**Alternative 2:** Take out a \$40k short term private 2<sup>nd</sup> mortgage loan to **76% LTV @ 15% Interest Only (\$500/month)** plus Closing Fees of approximately **\$4,200** (lender, broker, and legal) to pay off **ALL** credit card and LoC debts to \$0. **NO** prepayment penalties. **\$1,500** in excess cash proceeds to Borrower.

*Initial Application*

- Prior to new 2<sup>nd</sup> mortgage financing
  - Borrower entering 3<sup>rd</sup> year of 5yr term (due June 2016)
  - \$421,500 1<sup>st</sup> Mortgage @ 2.35% Variable (Monthly Payments of \$1,608)
  - \$12k LoC w/1st Mortgagee @ \$360/month
  - \$46k of auto and credit card debt serviced @ \$1,120/month
  - Credit Score of 538

<b>Subject Property</b>		<b>\$610,000</b> Appraised for \$610k June 2014

## Private 2<sup>nd</sup> Mortgage

- Brahma Capital provided \$40,000 2<sup>nd</sup> Mortgage Loan to 76% LTV
  - Paid off LoC and credit cards amounting to \$32k
  - Avoided \$2500 prepayment penalty and \$1k increase in monthly mortgage payments (\$12k annualized)
  - After payouts and closing costs, **provided** the Borrower with over **\$1,500 cash from proceeds**
  - Borrower's monthly payments **dropped almost \$600/month** (OR \$7,200 annually)

**Monthly Credit Payments**

## Exit Strategy

- Mortgage Agent and Lender cut Borrower's monthly payments by \$750 (\$9k/year) by doing the following:
  - Broker worked with 1<sup>st</sup> mortgagee to refinance 75% to 80% LTV once credit score exceeded 650
  - Reporting Covenant – Borrower to submit credit card and LoC balances every 2 months
- **Within 6 months, Borrower's Credit Score was 670!**
- **Borrower upsized & refinanced into new 1<sup>st</sup> mortgage @ Prime – 0.60%** (2.75% < initial B Lender option)
- **TOTAL COST = \$7,200** (\$3,000 Interest Costs *plus* \$4,200 Fees) = **Increase in Cash Flow** (Previous Page)

## Summary Comparison

- Alternative 2 (private 2<sup>nd</sup> mortgage) for debt consolidation is much **superior** in terms of (a) lower annual cash outflow (**\$25k vs \$33k**); (b) lower closing costs and fees (**\$4k vs \$9k**); and (c) higher post- home equity value (**\$161k vs \$147k**)

## *Conclusion*

### **Benefits Private 2<sup>nd</sup> Mortgage Financing**

- Improves credit score dramatically (reduce utilization. Payments and loan NOT reported on CB report)
- Access to credit card and LoC liquidity and limits remains intact (NOT required to close out accounts)
- Consolidation reduces the risk of missing a monthly payment – less monthly payments to deal with.
- Prevents Borrower from getting locked into a medium to long term higher rate alternative 1<sup>st</sup> mortgage – ‘A’ Borrowers should be taking 1<sup>st</sup> mortgage loans at ‘A’ rates (< 3%) and NOT at B/C rates (> 4.75%).
- Helps avoid potentially excessive upfront prepayment penalties and/or closing costs – especially if only 8-12 months away from end of term.
- A combination of the factors above could lead to dramatic reduction in mortgage and credit card costs versus traditional alternatives (B/C Loans) resulting in immediate positive free cash flow improvement, lower closing costs, and higher preservation of equity value in home.
- **Ecstatic client!**
